LX3

IMMERSIVE TECHNOLOGIES

EXPECT RESULTS

The LX3 is a medium fidelity simulator platform perfect for machine and site familiarization, emergency response and compliance training
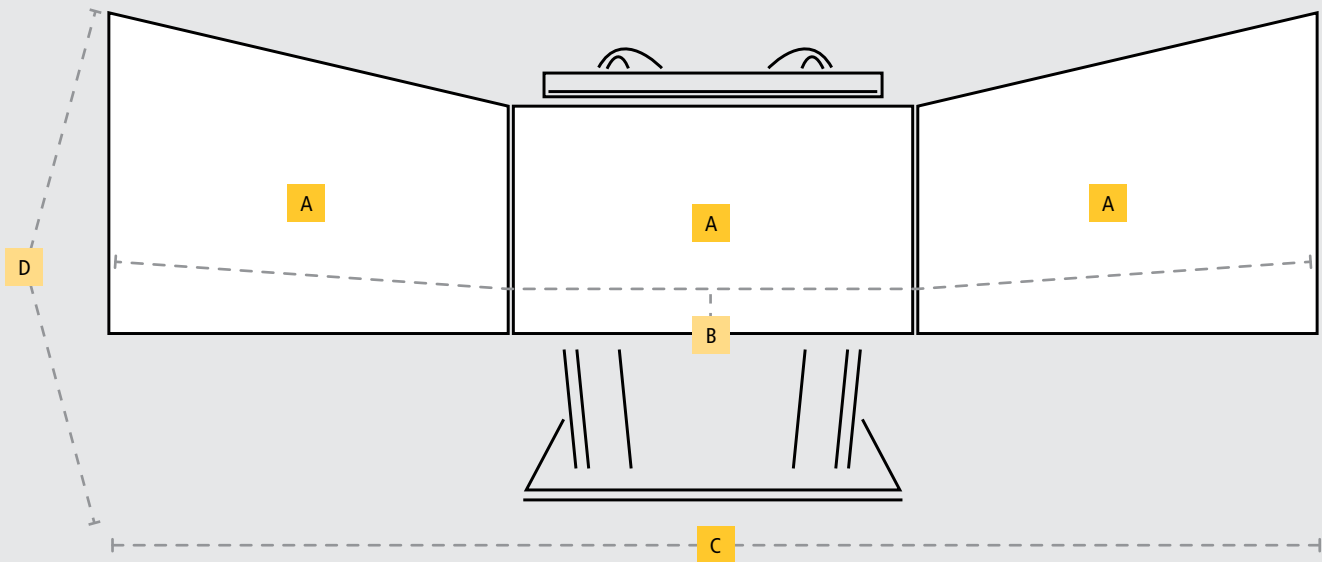

Medium Fidelity Simulator

LX3

Features

A	An all new HD visual display system	**C**	Smaller footprint platform compared to high fidelity simulators
B	Wide horizontal field of view allows truck trainees to safely transition and navigate through intersections	**D**	Built-in trainer station which is ideal for early stage training to a large number of operators

Benefits

Increase Training Productivity & Safety

Ideal for early training stages, emergency response, machine and site familiarization

Accomplish compliance training for safety

Free-up high fidelity simulators to conduct advanced training

Perfect solution for expanding training capacity

Cost-effective Solution

Lower cost training solution than high fidelity simulators

Efficiently train large groups of trainees at low cost

Minimize production impact by reducing the amount of in-field training time

Promote Simulation Efficiencies

Increase training throughput by utilizing surplus Conversion Kits

Conversion Kits are interchangeable across all Immersive Technologies' simulator platforms
